SUMMARY

- **Front-end developer** with **2+ years** of experience leading the development of advanced web applications using **React, Redux**, and **JavaScript ES6**

EXPERIENCE

Software Engineer(Frontend Developer)

June 2022 – Present

Mphasis Pvt. Ltd.

Bangalore

- **Implemented a versatile search feature** that allows users to match inputs with database records, **achieving a 20% increase in search accuracy** and providing a dynamic detail page system for users to view detailed information.
- **Enhanced user experience** with advanced filtering options and seamless page transitions, utilizing **React Router** to ensure smooth navigation, resulting in a **15% reduction** in page load time.
- **Developed a robust tracking system** enabling users to input tracking numbers to retrieve and view shipment details, improving tracking efficiency by **25%**
- **Designed and integrated a form** for correcting lost scan data, leveraging **React Hook Form** for efficient data management
- **Optimized application performance** through **code splitting** and **lazy loading**, increasing speed by **35%**

TECHNICAL SKILLS

- Languages : **Javascript, Java, Typescript**
- Technologies : **ReactJs, Redux, HTML, CSS, Tailwind, Bootstrap, REST APIs, NodeJs**
- Additional Skills : **Data Structure and Algorithms, JWT, Babel, Webpack, GraphQL, ExpressJs, SpringBoot, Jest, MySQL, MongoDB, Git, Jenkins, Agile methodologies, CI/CD, Problem-Solving**

PERSONAL PROJECTS

YouTube Clone | (Link)

ReactJs, Javascript, Tailwind, Webpack, Git

[Source Code](#)

- * Created a fully functional youtube clone using **webpack** as a **bundler**.
- * Implemented **left navigation bar** for browsing **video categories**.
- * Integrated a search bar using **debouncer** to enable users to search for videos
- * Provided **suggested video** list during video **playback**.
- * **Implemented a loader** to indicate when API calls are in progress.

Movie-Rx | (Link)

ReactJs, ContextAPIs, Javascript, Tailwind, Git

[Source Code](#)

- * Implemented advance **search functionality** by movie title with genre filtering and sorting by rating and popularity using debouncing for enhanced performance.
- * Developed **detailed view** for movies and TV shows including rating, genres, overviews, creators, top cast and trailer watch link.
- * Integrated **recommendation system** to provide suggestions based on **selected movies or shows**.
- * Designed **sections** to display trending, popular and top-rated movies and TV Shows with toggle button for switching between Movies and TV Shows.
