SUMMARY

- **Frontend Developer** with **3+ years** of experience designing and developing advanced **Single Page Applications (SPAs)** using **ReactJS, Javascript(ES6+), Typescript**, and **Redux**.
- Skilled in **React Hooks, Context API, Responsive UI Design**, and Performance Optimization (**lazy loading, code splitting, caching**).
- Experienced in REST API integration, **state management**, and **cross-browser compatibility**.
- Adept at collaborating with cross-functional teams to deliver scalable, maintainable, and user-friendly applications.

EXPERIENCE

Frontend Developer

The Math Company (MathCo) Pvt. Ltd.

November 2024 – Present

Bangalore

- **Developed a KPI Dashboard SPA** using **React (Typescript) with Amcharts5** for interactive data visualization, improving reporting efficiency by **40%**.
- **Optimized data fetching and caching** with **React Query**, reducing redundant API calls by **60% reduction** through auto-caching and background sync.
- **Implemented secure authentication authorization** using **MSAL (Microsoft Authentication Library) with SSO**, enabling seamless login.
- Built a **multi-tab dashboard** with advanced **filtering and analytics** for granular insights.
- Secured application using **Protected Routes** with **React Router** to restrict unauthorized access.
- **Optimized application performance** through **code splitting** and **lazy loading**, increasing speed by **30%**.
- Collaborated in Agile/Scrum teams, participating in **code reviews, sprint planning**, and **CI/CD deployments**.

Software Engineer

Mphasis Pvt. Ltd.

June 2022 – November 2024

Bangalore

- Built a **dynamic search and detail page system** in **React**, improving accuracy by 20% and providing enhanced user navigation.
- Enhanced **UX and navigation** with **React Router**, achieving a **15%** reduction in page load time through smooth transitions.
- Developed a **real-time shipment tracking system** that improved tracking efficiency by **25%**.
- Designed and integrated a form management system for lost scan corrections using **React Hook Form**, ensuring accurate data validation.
- Improved application performance with **code splitting, lazy loading, and responsive UI design**, boosting speed by **35%**.

TECHNICAL SKILLS

- Languages : **Javascript, Java, Typescript**
- Technologies : **ReactJs, Redux, HTML5, CSS3, Tailwind, Bootstrap, Material UI, REST APIs, NodeJs, FastAPI**
- Additional Skills : **Data Structure Algorithms, JWT, Babel, Webpack, Amcharts5, ExpressJs, Jest, MySQL, Git, Agile/Scrum, CI/CD, Docker, Problem-Solving**

PERSONAL PROJECTS

YouTube Clone | (Link)

ReactJs, Javascript, ContextAPIs Tailwind, Webpack, Git

Source Code

- * Built a fully functional **Single Page Application (SPA)** replicating YouTube features.
- * Implemented a **search bar with debouncing** for optimized API calls and faster performance.

- * Added **responsive UI** with left navigation bar, suggested videos, and loader for real-time user experience.
- * Integrated **API data fetching with caching** to improve speed and usability.

Movie-Rx | (Link)

ReactJs, ContextAPIs, Javascript, Tailwind, Git

[Source Code](#)

- * Developed an interactive movie TV app with **advanced search, genre-based filtering, and sorting** (rating, popularity).
- * Developed **detailed view** for movies and TV shows including rating, genres, overviews, creators, top cast and trailer watch link.
- * Integrated **recommendation system** to provide suggestions based on **selected movies or shows**.
- * Designed responsive sections for trending, popular, and top-rated content, with **SPA-style** smooth navigation.

EDUCATION

Abes Engineering College || AKTU University

Master's of Computer Application || 8.7 CGPA

Ghaziabad, U.P., India

July 2020 – June 2022

IME College || CCSU University

Bachelors's of Computer Application || 7.2 CGPA

Ghaziabad, U.P., India

July 2017 – June 2020
